

AFFLOVEST® MOBILE MECHANICAL OSCILLATION THERAPY THE CUSTOM FIT

AffloVest® is a proven high frequency chest wall oscillation (HFCWO) therapy designed to provide patients the freedom and mobility to customize and enhance airway clearance therapy, help mobilize lung secretions, and promote treatment adherence for patients with bronchiectasis, cystic fibrosis, and neuromuscular diseases.

TAILORED THERAPY

Patient-specific therapy with eight anatomically positioned oscillating motors to create individual pressure waveforms to target all lobes of the lungs, posteriorly and anteriorly, to loosen, thin and mobilize the patient's lung secretions. It is designed to mimic the gold standard Chest Physical Therapy.

COMFORTABLE DESIGN

With seven, lightweight custom fit size variations (XXS-XXL) and adjustable shoulder and chest straps, the ergonomic fit of the AffloVest can accommodate different patients' needs for tailored therapy that fits young children and adults.

MOBILITY DURING USE

The battery-powered AffloVest is designed to increase therapy adherence through mobility during use. The ability to do airway clearance therapy on the go while performing normal, daily activities can provide more consistent therapy compliance and an improved quality of life.

“The AffloVest has given me a new sense of freedom. I immediately noticed a difference in how I felt and am now productive while wearing my vest.” — Sarah H., AffloVest Patient

UNIQUE FEATURES INCLUDE:

- Anatomically targeted therapy
- Fully mobile during use
- Digital, programmable controller
- 3 modes of oscillation treatment
- 3 adjustable intensity levels
- Quiet during operation
- Designed to increase patient adherence
- Compliance monitoring

SPECIFICATION

Mode of Operation	8 oscillation motors anatomically positioned into the AffloVest that create 8 individual pressure waveforms
Power Supply	Battery-operated, rechargeable with 5-year warranty, AC/DC power
Weight	Lightweight, ~5.0 – 8.5 lbs.
Sizes	Available in 7 sizes for a custom fit, (XXS to XXL - 18" to 65"+ chest circumference)

SIZE EXCHANGE PROGRAM

As children or adults grow, their AffloVest can too. Adjustments are made easy by our AffloVest Size Exchange Program*, which allows patients to go up or down in AffloVest size as needed, and be refit into one that provides the best fit for targeted airway clearance therapy.

AffloVest requires a doctor's prescription for treatment by High Frequency Chest Wall Oscillation (HFCWO). The AffloVest has received the FDA's 510k clearance for U.S. market availability, and is approved for Medicare, Medicaid, and private health insurance reimbursement under the Healthcare Common Procedure Coding System (HCPCS) code E0483 – High Frequency Chest Wall Oscillation. The AffloVest is also available through the U.S Department of Veterans Affairs/Tricare. Patients must qualify to meet insurance eligibility requirements.
